Dallas School District Student/Athletic Insurance Coverage

Dear Parents,

The Dallas School District has purchased insurance for your student/athlete that protects them when they are participating in school sponsored and supervised interscholastic sports including scheduled practices. The policy also extends coverage to band members and cheerleaders.

The district's policy will coordinate with any valid and collectible coverage that you may currently have. If you have no other insurance coverage, the policy will act as your primary coverage. It is important to remember that while the policy provides substantial protection for your student/athletes, there are limits as to how much it will pay for certain procedures.

\$100 Excess – The District's policy will pay the first \$100.00 of eligible charges whether or not you have other insurance. After that, claims for payment must be submitted to any other valid and collectible coverage you may have. After your primary coverage processes the charges, the detailed provider/facility bills along with the Explanation of Benefits (EOBs) from your primary policy are submitted to our policy administrator, Philadelphia Insurance Companies.

If you have questions about this coverage or about an existing claim, you can contact our Plan Administrator, Chad DeBona at Assured Partners at 570-819-2000.

Sincerely,

Grant S. Palfey

Business Manager
